U Use

Campus item access

Date-aware requests.
Private timetable matching.
Explicit handoff and return.

Buy. Borrow. Rent. Swap.

Eight DTS classes. Approximately 430 students.

19 October 2026

Student needs and design

Team-reported interview summaries, n = 15. Qualitative input.

01

Occasional demand

Students first ask friends or use existing services. Urgent low-value needs may not justify a separate handoff.

Product response

Prioritise a planned need with dates. Expect occasional use.

V002, V005, V008, V015

02

Owner commitment

An idle item is not guaranteed supply. Dates, accessories and return responsibility affect willingness.

Product response

Require owner acceptance, plus handoff and return confirmations.

V001, V003, V009, V012, V014

03

Privacy choice

A suggested time does not replace consent. Live location and a full timetable need not be public.

Product response

Keep maps optional. Review classes and allow manual time entry.

V001, V004, V005, V013

First target user

DTS student with a planned need, without a suitable item from a peer.

Pilot market and alternatives

TAM context (XEC)

4,000+

May 2026 report.
Population, not demand.

Pilot SAM boundary

~430

Eight DTS classes.
Team estimate, access to confirm.

Four-week planning stages

Supply cap: 4 owners × 2 fulfilments = 8

SOM: min(2 forecast, 8 capacity) = 2

80 × 10% posting × 25% completion

Substitutes and our proposed route

Alternative	Operating model	Useful for	Local task to compare
Xianyu	Resale listings	Permanent ownership	Dates and public handoff
Renrenzu	Equipment rental	A specified rental need	Terms and total price
ATRenew	AHS trade-in / Paipai resale	Dispose of or buy devices	Transfer versus temporary access
U Use (proposed)	**Peer-owned item access**	**A planned need, a willing owner**	**Relevant supply and operating time**

S1-S4. All pilot stages are assumptions. Comparative task fit is a team judgment, not a feature-absence claim.

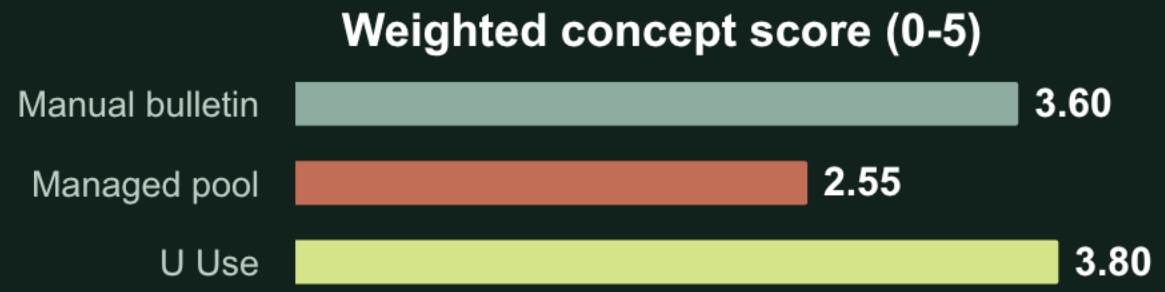

Product and concept choice

Request and offer

Confirmed return

Criterion	Weight	Bulletin	Pool	U Use
Scheduling fit	30%	2	4	4
Low operating burden	25%	5	1	4
Technical feasibility	25%	5	2	4
Privacy control	10%	2	4	4
Supply acquisition	10%	3	2	2
Weighted result	**100%**	**3.60**	**2.55**	**3.80**

Individual timetable matching

Import image / PDF. Review each class.
Suggest mutual free slots, then confirm.

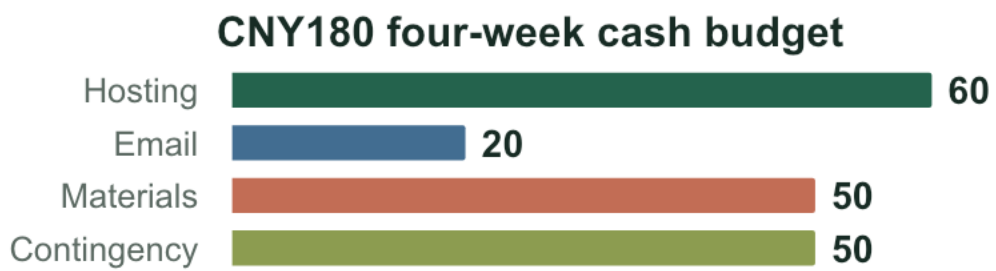

Sensitivity: move 15 points from scheduling to operations.

Bulletin 4.05, pool 2.10, U Use 3.80. A simpler bulletin remains a fallback if supply or operating effort disappoints.

Synthetic QA accounts. Scores are planning judgments. Maps and timetable import are optional.

Business model and pilot economics

Partners (proposed)	Activities	Value proposition	Relationships	Segments
Class contacts Student societies Hosting and email	Moderation Maintenance Pilot support	An item for your dates Clear fees and return Public handoff Optional location	Manual support Explicit confirmation	Occasional requesters Willing item owners DTS pilot first
	Resources Relevant supply Code and operators		**Channels** Eight DTS classes Permitted referrals	
Costs CNY180 cash for four weeks. Team time separate.			**Revenue** Pilot fee CNY0. Future fee unvalidated.	

CNY20
Planned paid GMV

CNY0
Pilot fee revenue

-CNY180
Pilot cash contribution

CNY1
Later 5% fee, before costs

Planning only. Team time: 56 h, assumed value CNY1,120. Free borrowing, swaps and deposits generate no fee GMV.

Team and next milestones

Agreed responsibilities

郭宇璇 (Rita)	Code and coordination
汪睿	Analysis and presentation
毛相宜	Interviews and requirements
黄俊杰	Recruitment and personas
李元龙	User tests and statistics
黄禹轩	Data and weekly submission
汤鋆秋	Iteration and retesting

Next real-user observations

Use personal timetables. Explain fees and return terms.
Decline location. Record outcomes, errors and retests.

W6 19-25 OCT

Three insights, persona and journey.
Link dates, consent and source records.

W7 26 OCT-1 NOV

Three concepts and weight sensitivity.
Own-timetable tasks and defect retests.

W8 2-6 NOV

Nine BMC blocks and claim-evidence map.
LMO: six slides by 6 Nov, 23:59.

Proposed pilot gate

Two genuine completed requests, no severe privacy or loss incident.
Learning gate only. Live email, devices and production checks remain open.
